A journey to Jeddah and Medina

FLORENTIN SMARANDACHE

photos of Saudi Arabia

The present album is a collection of photos from my travel to Saudi Arabia in the cities of Jeddah and Medina, in December 2018. The trip was occasioned by the invitation of *King Abdulaziz University* in Jeddah to deliver a presentation at the seminar "History of Neutrophic Set and Logic and their Applications", regarding the evolution and development of neutrosophic set, logic, probability and statistics.
